

**Balneology Research Institute, public research
institution
Mšené-lázně, Czech Republic**

Registered in the Public Research Institution Register operated by
Ministry of Education, Youth and Sports
As of the 9th of June 2011

Balneology Research Institute, p.r.i.

Balneology Research Institute, p.r.i. was established in June 2011 as a public research institution. It takes up the programme of the former Balneology Research Institute, s.p. closed in 1991. In the area of basic and applied research it focuses mainly on problems of **balneo-technics** (including care, use and protection of natural healing sources), **biomedicine informatics** and **balneo-medicine**. During its short time of existence the institute was incorporated into the regional and national research infrastructures, even when there has been a lack of money.

Balneology Research Institute, p.r.i.

VÚB offers:

- Cooperation between KZ a. s., UJEP Ún.L, VUHU a. s. and the Ústí Region Labour Office on tasks completing Provisions in area C, described in RIS ÚK, see the previous slide.
- Application research and designing for domestic as well as international investors in the area of unused spa opportunities in traditional spa areas with available natural sources (e.g. the spa town of Bílina)
- Application research and designing for both domestic and international investors in the area of establishing and operating of Seniors' Homes with special problems (i.e. homes for seniors with senile dementia)
- Etc.
