

Krajská zdravotní, a.s.

hospitals of Ústí Region

Martin Zeman
Vojtěch Krump

September 21 - 22, 2015 / Clarion Congress Hotel - Ústí nad Labem

Krajská zdravotní, a.s. /KZ/

A joint-stock company established by the decision of the only owner - the Ústí Region Government - by the transformation of hospitals in Děčín, Ústí n/L, Teplice, Most and Chomutov into KZ in 2007

KZ has 6,600 employees - 2,800 nurses and 900 doctors of all branches; the rest are supporting professions

The budget of KZ is almost CZK 5.5 bil

Due to its geographical distribution in the region it creates a centre line of health facilities providing complex, quality and approachable health care primarily to Ústí Region citizens

Its basic mission is to provide quality and approachable health care

Krajská zdravotní, a.s.

Hospital Děčín, o. z.

308 beds / 646 employees / 12 clinical wards / 89 working positions for doctors

Masaryk's Hospital in Ústí nad Labem, o. z.

1 139 beds / 2 383 employees / 40 clinical wards / 401 working positions for doctors

Research activities and infrastructure

The hospitals of Krajská zdravotní, a.s. pilot through hundreds of clinical studies, as well as solve research grants financed from public and private sources.

Experts from Krajská zdravotní, a.s. publish in renowned scientific magazines, sit as bodies of editors and on scientific boards of academic organisations. They are also members of scientific societies and teach at universities.

Krajská zdravotní, a.s. manages its own scientific board, ethic committees, medical library, project office, multimedia room, tutorial area, educational department, as well as staff for organizing congress activities and other infrastructure necessary for the development of innovative, scientific and educational activities.

Connection of science, education and top health care

- Pedagogic, research, developmental and innovative processes are concentrated mainly in clinics, laboratories and centres of excellence, but also in other parts of Krajská zdravotní.
- Long-term partner cooperation with renowned institutions in this area is necessary.
- The main partner is the Univerzity of Jan Evangelista Purkyně in Ústí nad Labem, among others there are e.g. Charles University in Prague, Czech Technical University in Prague, and the Institute of Experimental Medicine of the Czech Academy of Sciences

Opportunities for cooperation in the area of biomedical research

- We have unique experience, equipment and backgrounds
- Scientific and innovative activities are among our priorities
- We welcome any proposals and topics for a mutually useful long-term cooperation which is beneficial for our patients, students and citizens of the whole region

Restrictions for biomedical research development

- Absence of the School of Medicine and a faculty/university hospital in the Ústí Region
- Low number of realized RDI grants in the Ústí Region
- Unsatisfactory cooperation in the area of biomedical research and academic education with Saxon institutions and renowned world pracovišti

Krajská zdravotní, a.s.

Hospitals of the Ústí Region
